

AP: The Advanced Placement Program

- Any matriculated student at Saint Vincent College may be granted advanced standing credit via AP.
- No charge will be made for granting AP credit.
- Up to 62 credits may be earned via AP and similar evaluating mechanisms.
- Students who have earned credit through AP should be aware of the limitations of AP. Academic credit does not guarantee thorough knowledge of a subject. This is especially important for students in vertical sequence courses.
- If a student chooses to take a classroom course for which AP credit has already been awarded, the grade for the course will replace the AP credit. No double credit is possible. A faculty advisor can counsel a student to take a classroom course for the student's own benefit even though the student has earned credit by AP in that subject area, but the faculty advisor cannot require that the student take the course.
